Comments: Recommendations

Hi,

A few things:

- children 17 and under should be free. Period.
- significant discounts for this 60 and above,
- would it be possible for the northwest forest pass to cover the wilderness fee
- if not the fee should be minimal - especially if as northwest forest pass is already purchased.
- fees should be based on a per entry and not a per night as charged for families on multi night trips or poor students could add up.
- the USFS needs to spend more on all of its trails. I would pay even a little more for the northwest forest pass if there was more spent on trails

Tyler
