Comments: Thank you

Thank you for implementing this process. I think it is extremely necessary to have control over the trails so they are preserved for future use.

I think the permits should be printed and put in the cars so that rangers can enforce parking lots as well.

I would like to see more enforcement of the rules especially dogs off leash and having a permit. I hope the money raised during the permitting process can help pay for more rangers on the trails.

I do not believe that hunters should be allowed permit exceptions.

I think forest service volunteers should be given permit exceptions regardless of if they are in uniform.

With Gratitude,

Amy
