Comments: 2020 permits and limited access to trails

Hello,

I enjoy hiking the Oregon cascades during the summer months, especially. I understand that some of the trails are overcrowded. I would like to propose that you only charge access fees, and limited access for Friday/Saturday night stays. The rest of the week does not seem to be busy. Limited access should only be for Saturday and Sunday day hikes during the summer months. When I have hiked other days, the trails are not usually busy. Please, don't charge more fees. Thanks for listening.
