Title:

Comments: To whom it may concern,

I oppose the "Foothills" project as currently proposed due solely to its provision to proceed as deemed fit by state and federal agencies for 20 years without public input on each and every phase of the project. I hunt some of those lands, I've camped and fished them in years past, and plan to do so again in the future. I am not opposed to sound forest management practices such as preemptive burning, see California for an example of how to NOT do it, but I emphatically oppose granting government agencies free agency to change, remove, or block access to previously accessible public recreation areas.

Thank you for your time,

Jason
