Title:

Comments: USAF, I support the fire reduction plan for Big Creek. I do have concerns about the protection of the private property in the area. I have concerns about the road, Profile Gap Road, of being in any shape for a fast mass exit with livestock. I believe that an additional meeting is in order for all of us in the valley to ask questions of the EA. The proposed meeting you have suggested to take place in Big Creek between 12/5 and 1/6 is impossible. You should know that. Just this kind of a suggestion makes me wonder about truly knowing where Big Creek really is.

I do feel Big Creek is a fire waiting to happen and something needs to be done. But I want more of my questions answered.

Thank You

Judy Fregien
