Title:
Comments: This project is vague, oversized and lacks sufficient public input. It lacks specific information regarding scope, location and proposed activities. Where is this proposed plan on your website? What private contractors will be involved and how will they be selected? Who will benefit from this project? What will happen to trees and timber products? How will erosion control be handled?. Where is the environmental impact study? Where's and when will public information meetings be held? How much will this project cost? What trails will be affected? What is the justification for this project? Why is this projected be rushed?
