First name: Susan

Last name: Harmon

Organization:

Title:

Comments: Would so like to see the Georgia Mountain Treasures areas that lie in the foothills to be formally acknowledged in this plan. Thanks for considering. The Georgia Mountain Treasures book is in the hands of many USFS personnel including the Project Manager Stephanie Israel. It can also be accessed at www.gafw.org. TheGrassy Mountain area is the one that is most crucial to protect from the kind of management activities outlined in the plan.
