Comments: Any policy which seeks to damage the great outdoors is strongly opposed by my entire family. My wife and I used to live across the street from Cochran Shoals and we would kayak, hike, bike etc all over those trails. We love being outside and any policy created to threaten that concerns me. Earth is our most valuable resource and I would like to protect it at all costs. Please do not pass this policy and please continue to take care of our most precious commodity in Atlanta.
