Comments: I am cognizant that our parks need funding but this is going to extremes. The open ended plans & time frames leave way too many ways for those who make decisions, which include some people don't give a flip, to do more damage than good. Lumber companies are not necessarily our friends. I've seen how the landscape is left and they pay pennies to destroy what management is to protect.

Our PLANET is in serious trouble, please reconsider the original plans. There has to be better ways to achieve the goals.
