Comments: I do not agree with the stated plan. We should be planting more green areas instead of cutting trees down. there is plenty of deforestation in other countries like brazil or north oregon that do not care for the environment. Furthermore a plan should be prepare to see what will be done (with specific dates and goals), which areas will be affected, who will be the beneficiary of this timber and specially who will pay for this.(taxpayers??) This is wrong. Opposed until a better plan is propose
