First name: Mary

Last name: Fowlkes Wheetley

Organization:

Title:

Comments: As a resident of Georgia, I ask that you put a halt to the Foothills Landscape Project. All agree, with very few exceptions, that global warming, induced my man, is a severe and imminent threat to our planet and way of life. The Forest Service should be moving towards more conservation efforts, working with environmental organizations, and mitigating the impacts of need for greed. Protect the forest and work in concert with all stakeholders.
