Comments: I frequently ride at both at both Oakey Mtn. and Whissenhunt OHV areas. I would like to see you add to and/or re-route the existing trail systems. I believe that more one-way motorcycle only sections should be added similar to one currently at Whissenhunt, as this is both safer for the rider and better for the environment as you can better control the impact of dirtbikes. I have seen first hand a group of UTV/ATV riders who's machine was wider than the new gates at Whissenhunt lift the old gate off the hinges to get their UTV on to the trail system. I feel as better gates are needed to help deter this type of activities. I also feel that you should re-open the bathrooms at Oakey Mtn. and just convert the old campground into a day-use parking area. I wish that you would re-open Locust State OHV as a one-way motorcycle only area.
