Comments: Thank you for looking out for the people living downstream of Spirit lake.

I agree with the proposal to create a road to access the tunnel at spirit lake.

Contrary to the emails I receive from the Cascade Forest Conservancy I believe that expediting this project is necessary and prudent.

Every time we take a breath we pull oxygen from the air irrevocably that is just a way of life. If we need a road then build a road it is just a fact of life for new pumice plains.

The eruption of the mountain far exceeds any damage that could be done to the habitat for many years. I am not supportive of wasting and destroying the monument for small commercial gains but active management is necessary for any domesticated volcano.
