Title:

Comments: I agree with SELC that the Foothills Landscape Project will take away our God-given right to land management decisions. "No matter how you think national forests should be managed, eliminating the public from the decision-making process surrounding projects on their public lands is never the right approach....National forest users -including hikers, bikers, hunters, wildlife watchers and scenic drivers- won't know which areas are on the chopping block until the opportunities for public involvement required by federal law have long passed. These people deserve a seat at the table." We NEED and should be guaranteed the right to participation from all members of the public, especially those who visit and love these lands. DO NOT APPROVE THIS PROJECT.
