Comments: I oppose the Foothills Landscape Project.

1. The proposal is deceitful. It is a de-landscaping project!
2. the proposal lacks transparency
3. The proposal lacks accountability

The proposal represents a new approach by the Forest Service. Typically, a logging or road project, is announced for a very specific area, then the Forest Service asks the public to weigh in, looks at the environmental impacts, and makes a decision.

But with the Foothills Landscape Project, the Forest Service is not providing site-specific proposals.

SHAME ON YOU. You are pillaging the forests my kids and grandkids are is to inherit.
