Comments: This project is too generic. It needs to be broken up into specific projects so we can understand and comment on what is happening in our state before blanket approval is granted for any number of projects are undertaken. Some of the efforts proposed under the umbrella of this project will be great and useful, but it's sketchy at best and conspiratorial at worst to be proposing such a large project without truly allowing We the People to have a legitimate say. Please back off on this project and provide more complete details on what actual actions are planned.
