Title:

Comments: As a long time GA resident who values natural areas for recreation, the health of our environment, protection of plant and animal life, and preserving the natural beauty of our country for future generations, I urge you to not approve this project 50529 which could potentially cause so much damage to these natural areas that have been set aside for protection. Individual project should be approved after careful consideration and through a process that has been established to ensure the health of these spaces for many years to come.
