Comments: I am totally opposed to this project as of right now. It seems like certain parties have tried to slide this under the rug with very poor communication with interested public parties. This should have been handled more out in the open with maybe mailouts to all the people surrounding and in the affected areas. I vote to stop this project before it starts and handle this the way it should have been handled. It smells like a get rich quick for a few with no regard as to how it effects the public
