First name: Luanne

Last name: West

Organization:

Title:

Comments: I am very much opposed to this action that shuts off any public input into plans to change the Chattahoochee National Park in Georgia. This land belong begs to me and other citizens who absolutely have a right to determine its uses and management!

Who will be logging? Where will the logs go? Who republicans Kant's? Who benefits? It better not be some private company.

Tax paying citizens are watching, registering to vote and are very tired to rich corporations profiting off our resources.
