Title:

Comments: The Chattahoochee N.F. Contributes a mere 1.3% to Georgia's timber output. No logging at all is needed in this forest. This "plan" is irresponsible. Please do not proceed with this plan to open our precious forests to unrestricted road building activity without public input. These are public lands, not the property of logging companies, and should be treated as such, with continued public input and balanced use for logging, hunting, recreation and preservation.

Thank you
