Last name: Kent

Organization:

Title:

Comments: Destroy is that all you know how to do. Learn to protect the wildlife instead of killing it. The Forest service of all people should protect the forest not burn it down, what are you thinking? Are you bored? Maybe some of you should find new jobs since you can not be trusted to protect the wildlife that exists on the land you want to log, and the land you want to burn. Go destroy your own homes since you obviously want to cause death and destruction.
