Comments: Closing off road trails is stupid and bring more money in the campers do. Look at two wheels only in Suches Ga they bring in more money for the area then all the camping put together. It a shame that a bunch of college boys with no common sense runs the forest Service. Be a great day when the economy crashes and the lay all you off.

People can't even carry a gun in the woods making them a victims so this is just something to make some politician rich that all this is.
