Title:

Comments: Leave it alone. Bar the experts, loggers, big equipment operators, improvers, and similar types who will destroy the forest. Do you want conifers, muddy roads, bull dozer trails, muddy creeks, young bushes, no mature trees. Bar chain saws, bulldozers, big trucks, HYDRO-AXES. Every fresh stump is a sin. Forest will be full of them, but they are not improvements. They are SINS!

I know because my wife and I have a place in upstate New York bordering 9000 acres of state "park"

A disaster of thick impenetrable spruce, muddy ruts! Piles of unwanted brush everywhere. Very little wildlife, deer, turkeys or bear.

Leave the woods alone.
