Comments: The Chattahoochee National Forest is important to Georgians, the ecosystem and visitors from throughout the US. Re:the Foothills Landscape Project Do Not proceed with your plans for commercial timber harvesting, prescribed burning, herbicide application, rerouting miles of trails; and building an undisclosed amount of "temporary" roads! Your MUST have a plan with more specific actions for residents to evaluate and provide input to. Please go back to the drawing board and create a more detailed plan and consider long-term impacts of any actions chosen.
