Comments: PLease keep everything as-is! We have enough for all to enjoy, not that I personally wouldnt like more trail for both hiking and biking, but due to not know what you budget is going to be in years to come let us try to keep what we have in as-good a-a shape as we can! Grading existing FS roads, fixing landslides etc! I appreciate the work that you do but we need to keep what we have in good shape and not clear more land that then is neglected! And if new roads are needed make a gravel! Keep Atlanta away as-long-as possible!  
thx
