Comments: Fellow American,
You must NOT allow the Foothills landscape project to go forward! Presidents Roosevelt and Isenhower were instrumental in establishing this National Forest. It is less than 2 hours drive from congested metro Atlanta and among, if not the most, visited National Forest in the country. Allowing pesticides and logging in this area will devastate the habitat and eco tourism visitors will no longer come. The small towns in the area rely on revenue from hikers, hunters, fishermen, mountain bikers, site seers who visit as part of their economy. Once you log the land and kill the habitat and leave a waste land these towns will be poverty stricken. Visit the towns, talk to locals, take a hike you will see this is true.

PUBLIC lands shown NEVER be given to private corporations. It's UNAMERICAN and immoral. Do the right thing. The way Presidents Roosevelt and Isenhower did.

David Reed
