First name: Samuel Fenn

Last name: Little

Organization:

Title:

Comments: I have hunted and fished the Chattahoochee for the last 45 years. I have seen a decrease in the populations of most all game other than wild hogs and bear in certain portions. While the rest of the state seems to have a flourishing deer population including my neighborhood inside the perimeter Atlanta. Sound conservation management involves not just leaving everything alone but managing. I support option 2.

Thank you for all your efforts.

Fenn Little
