Title:

Comments: Being a lifelong hunter and fisherman and after seeing what has happened to our forests is very disturbing, the lack of wild game, and even the lack of wild trout that were found in most of the streams in the national forest when I was a kid (66 years old now) due mainly to the lack of habitat for these fish and game.

I approval of project #52509 in hopes that my grandchildren will be able to hunt, fish, hike and bird watch as I did when I was small, without these types of projects the forest will continue to be a barren and devoid of the wildlife that makes the forest a place of recreation that we as taxpayers should be able to enjoy!
