Comments: I have witnessed the decline of the wildlife here in Union County over the last 20 years. As an avid hunter and fisherman, I have hunted and fished on both Cooper Creek and Rock Creek Management areas countless times. 15 years ago, turkey and grouse were frequently seen and with a little luck, occasionally harvested. The turkey population is almost gone and I haven't seen a grouse in 10 years. I am all for whatever helps bring the wildlife back up to a healthy number for the forest.
