First name: Richard

Last name: Hamilton

Organization:

Title:

Comments: As a sportsman, I wholeheartedly support the project. I have seen deer numbers decrease in the last several years in the area of the National forest I hunt. I believe it is because of the thick canopy of leaves that blocks the sunlight and prevents undergrowth. This project will allow for management of the forest and allow undergrowth to develop and become a needed food source. Thank you for your consideration in this important project.
