Title:

Comments: I am not in favor. I am a lifelong trail rider, LNT promoter and user of the National Forest. I understand the need to manage the forest but I want to see areas where old trails/roadbeds have a buffer of trees so as to not ruin the experience by having to look at a clear cut while hiking or riding.

I think the public should have a chance to know what the USFS plans to do and have a chance to respond prior to anything being done.
