Comments: It is way past time for humans and 'managers' to stop raiding the til. Our natural open spaces and forests are irreplaceable, and vital for US and ALL LIFE ON EARTH.

Leave nature ALONE.

ALLOW natural processes and biological diversity to regulate themselves, free of human meddling.

Nature can sort herself out IF we take our hands and greed away and ALLOW HER TO FUNCTION.

NO LOGGING.

NO PESTICIDES.

NO BURNING.

NO ROADS.

Thank you.
