Comments: I have hunted the mountains in Union county since I was a kid. Since all the old clear cuts have matured and no more timber is being harvested the wildlife population has suffered greatly. No doe days will help some but not enough. The CNF is the taxpayers land not just forest watch. After hunting all of rifle season I saw 12 deer. Two were 8 points that I harvested, 3 bears and jumped a grouse or two. Someone needs to stand up and cut some timber because it will only get worse.
