Title:
Comments: I am an active user of our outdoor resources. As a senior with a lifetime hunting and fishing license, I look forward to enjoying our forests in a variety of ways-hunting, fishing, hiking, camping, and ORV-dirt bikes with my family.

I am in favor of expanding access to our National forests and responsible management for recreational use including adding more single track, low maintenance trails for motorcycles. Closing access or restricting activities should be minimized

I support Alternative 2
