First name: Lynne

Last name: Dechman

Organization:

Title:

Comments: I have been watching a TV program called Our Planet. It has been an educational experience as it has informed me about the importance of keeping and protecting our forests, jungles, deserts and oceans for habitats for animals, protection of the planet for our growing population. I am against any development in the forests. Please protect our natural and remaining forests. It is for the protection of our planet. Respectfully submitted. Lynne Dechman, Attorney at Law
