Comments: Hello, I would like to lend my support to the proposed Foothills Landscape plan. As a resident in Northeast Georgia I have the opportunity to enjoy much of the National Forest that will be impacted. I support the idea of managing these forests for their overall health and for the benefit that these management practices would provide for the wildlife. I als can see how implementation of these practices can have an economic impact on the local economy in areas where these practices are implemented. I appreciate the effort being made to perform these needed improvements while still protecting any endangered or especially sensitive species in wares, as well as also protecting the water resources. I fully support the plan and those practices that are presently presented in the plan. Thank you.
