First name: Clayton

Last name: Farmer

Organization:

Title:

Comments: This project, would be a huge benefit to both the National Forest and those fortunate to enough enjoy the the area in years to come. Hunting and fishing doesn't have the popularity as it used to and opening up feasible opportunities for outdoorsmen to take their kids/grandkids/niece's/nephews/godchildren/ etc. to the outdoors and get away from the modern day distractions is an essential part of any child's upbringing. This project is sure to pay dividends in the future.
