Comments: This process needs to be redone before any further proceedings .

What are you doing posting this during the height of Christmas. You know what your doing , your trying to sneak this through while people are busy during the holidays.

The outline is inadequate . There is not enough specificity regarding all aspects of this proposal.

No to the herbicides , we know that they get in the food chain and the raptors , other bird and animals are sickened by exposure to herbicides , not to mention the bee population.

Not to the 350 miles of proposed roads, find a way to take out the wood by air.

There needs to be detailed plans for taking care of the damage done to the land,water and air.

Not only plans there needs to be money UP FRONT to pay for the damage done.

There needs stop be detailed plan for limited falling of trees, NO CLEAR CUTS or what ever vernacular you want to use.

There needs to be a way for the Public to have input,THAT IS LISTENED TO AND ACTED UPON during all stages of planning, implementation and closure of this process. None of what you tried tp pull off with this 35 day announcement.
