First name: Kara

Last name: Bassett

Organization:

Title:

Comments: Absolutely NO commercial logging on public forestry land.

Absolutely NO herbicide, pesticide, or fungicide use on public forestry land.

Adherence to these absolutes is imperative for the health and wellbeing of local wildlife, migratory birds and insects, and pollinators. Absolutely preservation and replanting of forestland is integral to the cessation of the human induced portion of global temperature shifts.

Use of herbicides, pesticides, and fungicides has longterm sub-lethal effects across the gamut of species and must be abandoned on public lands.
