Title:

Comments: I vote to keep the Tonto National Forest open for public use. Do not restrict or close any portion at any time. The more areas you close, that will make the remaining areas get even more use, causing more disruption. Let's keep it more spread out. People need to get outdoors. Let them! In addition, please close these paid parking lots that have been installed in the last few years. Allow people to access our National Forest at their leisure.
