Comments: I think this is a great idea. There are so many hunters and outdoors men in the North Georgia area looking for places to hunt and just be outside to enjoy nature. With this proposal it would open up a lot of acreage to be able to do just that. The only down side I see to this proposal is; that the wildlife may becoming extinct now and it will take years to get an abundant of wildlife reintegrated back to the forest. And like everything else that's new many people will flock to it and just kill whatever. Unless we regulate for a few years as to what and a quantity of what can be killed along with sizes of what can be harvested. My suggestion is to do a quota hunt for about 5 years to give the wildlife an chance to rebuild its populations.
