Comments: To whom it may concern.

My family lives in the Chattooga River watershed and believe that the Foothills Landscape project will have a negative impact on our public land for generations to come. We hike, fish, swim and float the river and forests of the We are very concerned about the unregulated process of this project and its impact. Please allow for more public input on OUR land. Please consider involving environmental groups to help manage OUR land.

Please take more time and make greater effort to listen to the public and their interests!!
