First name: William

Last name: Rivers

Organization:

Title:

Comments: As a lifelong whitewater canoeist and adventurer and nature lover please provide full and enduring protection of all streams found eligible in the Draft Plan as eligible and/or suitable for Wild and Scenic designation. None of their alternatives are acceptable. Healthy, clean flowing rivers are a necessity in my mind. I have spent many weeks paddling and enjoying my experiences on rivers in the northwest (and elsewhere) U. S. (too many to name). These experiences have been the highlight of my life and I hope that you will provide the opportunity for future generations to do likewise. Without full protection these rivers are at risk forever.
