Title:

Comments: It is vital that we protect rivers, native fisheries and watersheds that provide us life, a thriving economy, a healthy environment, beauty and serenity! The connection of these river systems to the health of the the oceans, atmosphere, our planet, makes maintaining Wild & Scenic designations vital! As stewards of these systems, the US Forest Service must maintain the Wild and Scenic designations that were enacted by the the people's representatives. We the people love our Wild and Scenic Rivers and ask you to continue to preserve these ecosystems our national heritage!
