Comments: To whom it may concern....

Please, please, please....DON'T destroy God's given green earth, or at least our little part of it. Having just moved here we want to enjoy our little piece of heaven on earth, all in it's natural beauty, with no human interference!!!! We started vacationing here 8 years ago and decided that this would be the most perfect place to retire. Now reading all this about what you want to do with the national forests is a tragedy!!!! Please don't continue with this plan...there has to be other ways!!!! Hopefully greed doesn't have a say in the matter and all of you involved don't have deep pockets to fill!!!! Please, I, along with many many others are so against all of this! Please reconsider....let the public have a say in their future along with the future of this beautiful part of the country! It is our right as we are the ones living here.

Keeping this all so hush hush as you did, did not give the public much time to have any say and that in itself is very wrong!!!! So please, do the right thing...DON'T do what you want to do!!!!!!

Sincerely....

Rhonda M.
