Comments: Hello,
I understand that a project is being undertaken to assess the Jake and Bull Mountain Trails near Dahlonega. As a passionate mountain biker, I love the fact that we have such great trails within a few hours of driving distance from us. I would most certainly NOT WANT any impact to occur to these trails as a result of this project. While you perform the assessment, there are a lot of mountain bikers like myself who love these trails and would want not just us but our upcoming generations to enjoy the simple joy of riding a bike on such beautiful terrain. I hope the authorities will take our request into consideration when making a decision on the next steps.
