Comments: Greetings. I am an avid Mountain Biker in the Metro Atlanta community. The bike community has spent many years building and maintaining our amazing trail systems in North Georgia Mtns. I have a long history of riding & hiking at Jake Mtn, Bull Mtn, and the Wild and Scenic Chattooga River Corridor, DeSoto Falls, Warwoman Dell, Dicks Creek, and portions of the Bartram and Pinhoti Trails. It's crucial in my lifetime and for my children's lives that we are allowed to continue to enjoy and utilize these areas without any issue. THE COOPER CREEK WATERSHED PROJECT was already a disaster, let's not repeat that. KEEP OUR TRAILS ALIVE - Our community has poured HOURS of volunteer time building and maintaining these BEAUTIFUL outdoor spaces. I AM NOT IN SUPPORT OF THIS PROJECT - THE SCOPE IS WAY TOO BROAD and poor defined. Allow the public to continue their input. I will continue to RAISE AWARENESS of this detrimental choice to destroy our beautiful outdoor recreation opportunities in North GA.
