First name: Jan

Last name: Tucker

Organization:

Title:

Comments: I am opposed to this project as written. Many use these areas for recreation including horse back trail riding, mountain bike riding and hiking. These areas are a beautiful, natural asset to each community and provide recreation income for many people and businesses nearby. Please be mindful with any clearing of these areas in order to keep the area beautiful and useable for both recreation users and also for the wildlife that makes their home in these areas. Minimal clearing and replanting over time will keep the area nice for all.
