Comments: Something needs to be done for our forest cutting timber isn't a bad thing it helps all the wild life thrive an grow stronger. A perfect example is that there aren't any quail and hardly any grouse in our mountains. The grouse numbers are getting smaller by the day. The reason for those declining numbers are no habitat for them to live in. Its disappointing that nothing is being done. Something needs to be done or there will be no wildlife for our kids and grandkids to enjoy.that is ashame.
