Comments: As a tax paying United States Citizen, and as a resident of Oconee County in South Carolina AND as a person who is concerned about the air,water, land and natural resources around me (see Health Care?), I demand that The Foothills Landscape(really??!!!!) Project be OPEN for Public Comment and ACTUAL imput! These lands are for ALL of us! No Old Growth harvesting is NEEDED in amongst the last remaining "special" forests in the eastern United States! We the people.... yada-yada?!
